Define your problem statement

5 minutes

PROBLEM

The waste management services take care of a healthy environment allowing optimization of the utilities and prevent overloading the carrier for waste disposal. Smart waste management also contributes to the overall waste recycling efficiency and provides the route optimization opportunity for utilities to reduce traffic and fuel use.

Brainstorm

smart waste management system for metropolitan cities

① 10 minutes

Ramachanderan

A big challenge in the urban cities is solid waste

management. The garbage collecting authority in traditional waste management system doesn't know about the

level of garbage in dustbin

Manoraj

People throw garbage on that dustbin which is already overflowed. Sometimes due to unclean garbage bins bad smell arises also toxic and unhygienic gases are produced

Ramkumar

which is way to support to the air pollution and to some harmful diseases which are easily spreadable. It is very bad look of the city.

Abirami

Use of traditional system result in inefficient and time and money spending system.

Arthi

if the dustbins gets full by garbage then it gets overflowed as well as spelled out from the dustbin leading to unhygienic condition in cities
